

## Coulson Organisation Ltd

Since 2005 The Coulson Organisation has earned a reputation for excellence in [direct marketing](#)

Our Representatives and Coulson Organisation staff work together daily to share ideas, resources, knowledge and best practice. Together we strive to help clients achieve their customer acquisition targets and increase their brand awareness in the most professional and in the most cost effective way.□

We serve organisations by helping them deliver exciting sales and marketing campaigns for local, national and international clients through the use of our trademark personal advertising approach the "[Human Commercial](#)".

As one of the country's leading direct sales and marketing companies, we welcome you to explore our unique and exciting customer acquisition and brand impact solutions.

The growth of The Coulson Organisation has been solely dependant upon the development of its people. Without a strong bias towards recruitment, product training, coaching, standards and quality development throughout every level of the company we would not have been able to contribute towards the outstanding success of so many of the clients that we represent.
